

ANNOUNCING SUMMER WEBINAR: SUPPORTING GRIEVING STUDENTS IN THE AGE OF COVID-19

Wednesday, July 8th 10:00am-12:00pm PST

Extraordinary times call for extraordinary measures and now is the right time to sharpen your skills so you can be there for students grieving the death of someone close. In anticipation that the first Global Pandemic will directly impact students in the LAUSD and other school settings this fall those skills will be even more necessary since many children and teens will depend on school personnel for not only academic support but mental health support as well. This course will provide you with both theoretical knowledge and practical skills to use in your work with students during these challenging times and beyond.

Training Objectives:

- Learn a state-of-the art model for understanding the grief process and how COVID-19 impacts grief in unique ways
- Look at children's' grief through a developmental and a cultural lens
- Acquire effective intervention strategies for use with individuals and groups
- Discuss the importance of self-care to avoid secondary traumatization
