Grief Intensive Training

February 7-9, 2024

Online

Death is a part of life. Grief is the natural response. Yet many professionals have not had the training nor developed the skills to support clients through this tumultuous journey. This experiential course will provide you with theoretical and practical approaches to use in your work with grieving children, adolescents, and/or adults. You will have the opportunity to enhance and practice your skills and to reflect upon your own comfort in dealing with death and bereavement.

OUR HOUSE, the leading grief support center and training facility in Los Angeles, offers comprehensive trainings for mental health clinicians, clergy, school personnel, and medical and hospice professionals. Through lecture, case discussions, small group activities, and role plays these trainings will enhance your ability to counsel grieving clients in private practice, school, and agency settings.

Training Objectives:

Our grief workshop and intensive training course provides a theoretical and practical approach to grief support to implement in work with grieving children, adolescents, and adults. Those who complete this training will have the opportunity to enhance and practice intervention skills and to reflect upon their own comfort with and understanding of death and bereavement. The thorough review of grief theories, relevant case examples, practical knowledge of interventions with both individuals and groups, and different views of the healing and meaning-making process, allow participants to take a multi-dimensional approach to learning how to be a competent and effective practitioner in grief care.

Quotes from Previous Attendees

"Thoughtful, sensitive approach to a very difficult topic. All activities handled with a great deal of empathy and time to appropriately respond to issues."

"When I think of all the grieving clients I've had in the past, I wish I knew then what I know now after this training."
